Grow your business with Encore for
Manufacturing

Anagram
systems

What is Encore?

Encore is a suite of software for ERP (Enterprise Resource Planning). It incorporates accounting and financial features along with stock, sales and purchase order processing to manage your warehouse and inventory needs and replenishing and selling your goods. It is designed to integrate all your commercial processes into one system with one set of data to be shared for all users across a computer network.

Over 2,000 Encore SME customers love our software

From simple beginnings as a richly featured stock control system Encore has developed into a highly functional ERP software suite serving businesses of all shapes and sizes for more than 30 years. Our customers are loyal and have loved using the system for many years.

Why Choose Encore?

Encore was written to manage stock and customer sales and purchasing processes. We understand manufacturer's needs and features within Encore and our customer bespoke development services provide systems designed to fit your business and your industry.

Key Benefits

- One integrated solution
- High Return on Investment
- Reduced administration
- UK support desk
- Latest technology
- Ongoing updates
- Industry-specific features
- Fully customisable

“

As our business has grown, so has our understanding and use of Encore - it's been a powerful tool for our business. Our relationship with the team at Anagram is first class - they're friendly, approachable and always have time to help solve our problems. The quality of the backup support team is superb and I find this as important for system reliability.

”

Make every customer count

By improving your efficiency and customer service Encore helps to ensure that every customer you serve counts by providing the right product, at the correct price delivered on time to the right address. Less waiting time and more service ensures your customer comes back every time.

A Support desk with personalised friendly help and 8 hour resolution times

We are used to offering a high level of service on our support desk and we pride ourselves in providing 8 hour resolution times in 9 out of 10 cases. We answer all our calls personally and as we are authors of the software we can usually answer your questions immediately.

			
Easy to Use	Perfect for Growing Businesses	Tailored to Your Company	Seamless Integration
			
Dedicated Helpdesk	Remote Access from Tablet & Mobile	Secure Login	Upgrade When You Like

Anagram are the country's foremost experts on small business stock control systems. If you go with them, you get an excellent package at a remarkably cheap price... from a bunch of stock control experts who offer friendly telephone support if you get into trouble.

John Stokdyk **accountingWEB**

Effective, affordable business management

Encore is aimed at the growing business. It is not designed for the large enterprise but for businesses looking for the next stage up from their current system. So Encore is priced affordably and offers hosted and on premise platforms with subscription pricing or financed options.

Why pay more than Encore?

Mid-market business software systems from large brands can cost the earth and are often the proverbial sledgehammer to crack a nut. With Encore you pay for what you buy with a system designed for your size and type of business.

Customisation to suit your business

Although our software is extremely comprehensive and will fit most types of growing businesses there are times when you require something specific to you. For this reason we offer a fully bespoke customisation service for those times when we have to create something special to resolve a specific issue.

Manufacturing Features

Production Planning

- Schedule works order quickly and simply
- Production component planning
- Production requirement planning
- Create weekly and monthly schedules
- Convert sales orders to works orders
- Identify what products you can make based on component stock levels
- Identify stock shortfalls which could disrupt the manufacturing schedule
- Manage purchasing easily and accurately
- View outstanding purchase orders to see delivery due dates
- Plan around late deliveries from supplies which could affect production lead times
- Calculate materials and labour costs
- Anticipate customer demand and plan future production runs

Product	Description	Week 28 03/07/2016	Week 29 11/07/2016	Week 30 18/07/2016	Week 31 25/07/2016	Week 32 01/08/2016	Week 33 08/08/2016	Week 34 15/08/2016
001-ECL001	Electronic computing left	7	10					
001-K101	Kitchen scale, 2Kg	246	273					
001-K102	Kitchen scale, 5Kg	418		305				
001-P121	Parcel scale 5Kg			200				
003-EK401	Electronic kitchen scale 2	1						
800-205	Spring assembly 10Kg	100						
800-525	Wing harness assembly	65						

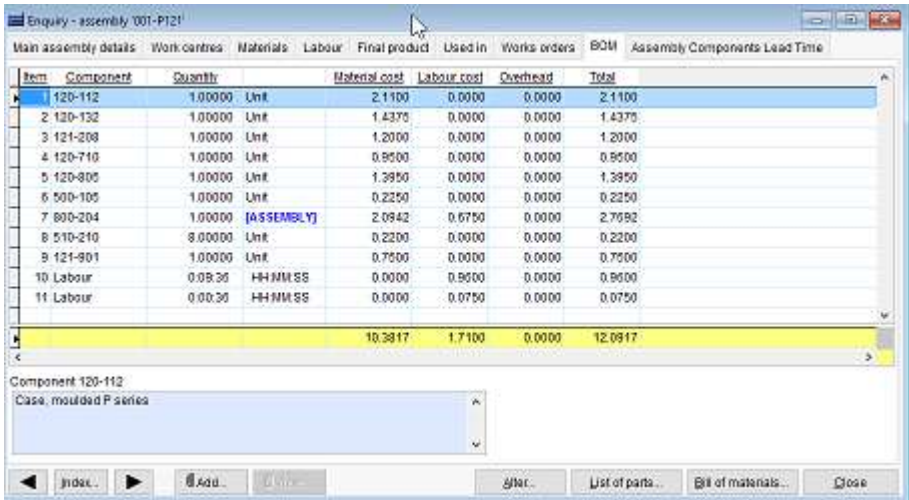

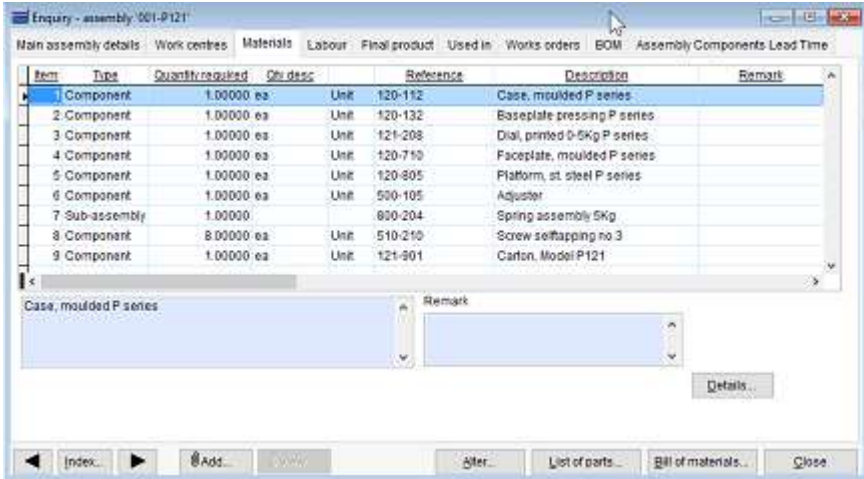

Works Order Processing

- Create work centres for every production project
- Accurately manage stock and component requisitioning
- Create assembly references that are unique to specific manufactured items
- Calculate labour costs and other overheads
- Record labour time in hours, minutes and seconds
- Schedule back to back manufacturing for items that need to be made to order

Line	Level	Assembly	Qty required	Qty on hand	Qty made	Parts issued	Required	Work centre	Priority
1		001-P121	200	200	0	None	07/07/2016	AWAITING NEXT STEP	
2		800-204	200	200	0	None	07/07/2016	AWAITING NEXT STEP	

Bill of Materials

- See materials assembly shortages in advance to avoid running out
- Products manufactured from multiple warehouse supplies
- Keep track of machine, labour and subcontract resources
- Raise purchase orders automatically or review suggested orders required
- Control and manage BOM versions and manage all product amendments

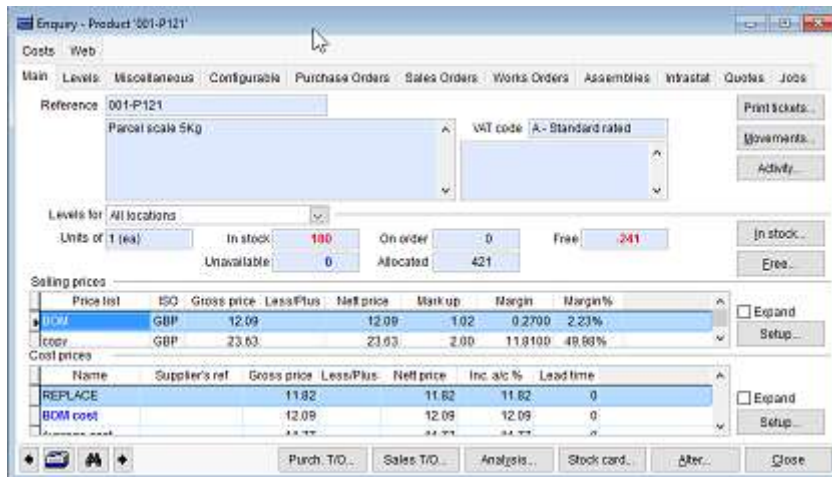

Stock Control

Stock control is one of Encore’s cornerstones and the detailed information relating to products is one of the best on the market.

A simple stock enquiry will give you immediate access to all aspects of a stock

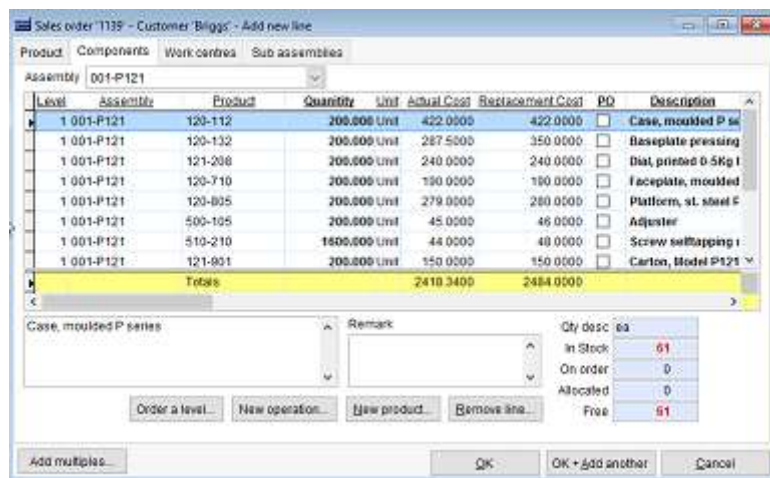

item, its movements, its location and stock availability levels.

Searching is fast by code, description, barcode, supplier ref or ticket numbers.

Sales Order Processing

- Multiple delivery address options
- Extensive pricing options from customer on-ly, quantity breaks, date restricted, product groups etc
- Back to back ordering
- Trade discounts
- Settlement discounts and terms
- Quotations and conversion to sales order
- Order acknowledgements, picking lists, dispatch notes
- Hold order
- Select carrier
- Call-off orders
- Reserve stock

Purchase Order Processing

The Purchase Order Process (POP) lets you keep in control of your buying.

Features include:

- Buying specials
- Back to back ordering
- Call-offs
- Part deliveries
- Seasonal ordering
- Copy orders
- Automatic and suggested orders
- XML orders - direct into suppliers' compatible systems without the need to re-key
- Multiple currency orders
- Receiving multiple purchase order deliveries from a supplier on one delivery receipt
- Matching of purchase order to supplier invoice

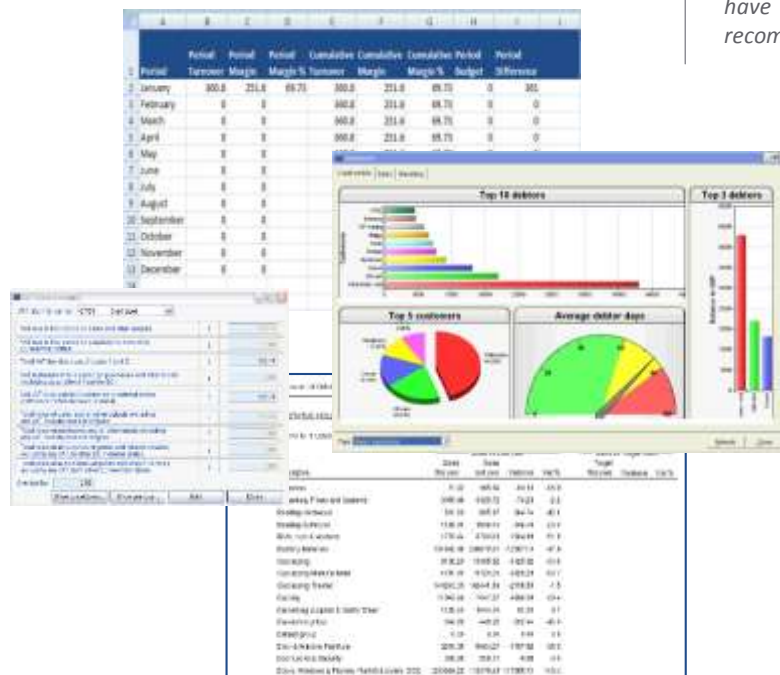

And many more features and functions designed specifically for manufacturers.

Financials, Back Office & Reporting

Encore would not be complete without its excellent back office system support. Sales, Purchase, Nominal ledgers and Cash Book provide cash flow, debtor, creditor, profit and loss and balance sheet reporting giving accounting staff the ability to produce meaningful and timely management accounts and reporting.

Data displayed on screen has drilldown options and reports can be routed to Excel for further analysis and manipulation. Likewise, on screen grids can be instantly output to an Excel workbook.

- Dashboard – customisable by user
- HMRC style VAT Return with drilldown
- ABC analysis of customers, products and suppliers
- Full financials
- Set and track budgets
- Handle exchange rates

Excel Output, Dashboard, VAT Return, Printed Reporting

“

The package covers all aspects of our business, from accountancy, with the multi-currency options, sales and marketing, to stock control with stock movement and assembly analysis. There are so many useful features to Encore that we are still finding new areas to explore.

”

As our business has expanded Encore has grown with us, there has never been cause to

even look at another system.

Stock inputting and reporting was a key requirement for us and through using Encore we can obtain quickly and easily all the information we need.

The system itself is very easy to navigate with a very user-friendly layout. From the initial sale through to implementation and beyond, the support from Anagram Systems has been excellent and we would certainly have no hesitation in recommending them.

”

CRM and Sales Opportunities

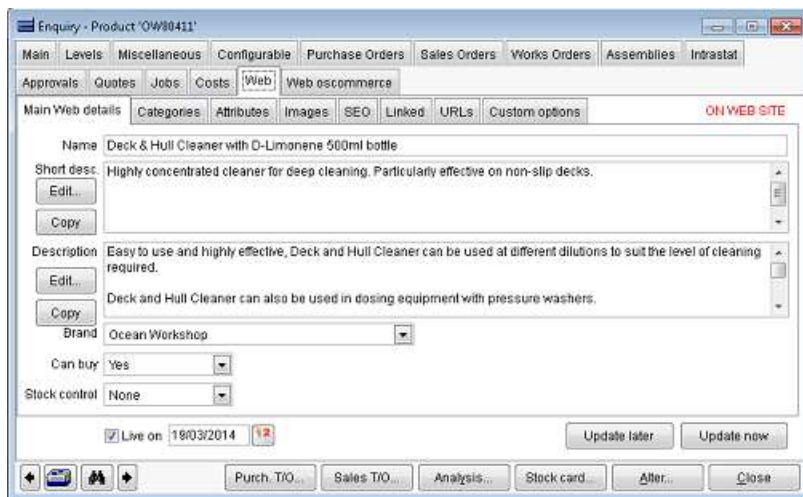

- Up-sell and cross-sell with EPOS sales prompts
- Sales forecasting - capturing, delegating and managing new opportunities
- Customer history - informing your sales people and operators about customer favourites and buying habits, stopped accounts - everything they need to be effective and exceed expectation
- Sales - creates quotations, enabling live entry of customer orders, sets up delivery schedules, updates stock balances and manages invoices and accounts receivable

Web Sales Management

- Integration between Encore, Magento and other ecommerce platforms
- Publish real time stock availability information
- Upload product images from Encore directly
- Manage product categories and attributes
- Manage multiple price lists
- Capture web sale and customer information
- Produce all web sale related documentation

How Encore can help your business

- A highly scalable solution to suit your growing needs
- High user satisfaction rates
- Improve staff productivity & reduce costs
- Built-in industry specific features
- Clear and affordable total cost of ownership
- Fast and easy to use
- Affordability and value for money gives you a rapid and high return on investment
- Regular software updates, ongoing development and full bespoke tailoring service
- A dependable system which will last, evolve and adapt to your needs

Other Features

- Keep track of customer wish lists, supplier appointments and reminders with the interactive calendar.
- Integration with TAPI compliant telephone systems
- Store product images and print these onto receipts and other documents
- Manage transactions in multiple currencies
- Remote access via smartphones and tablets
- On premise and hosted versions of Encore are available

“

Anagram seem to really understand smaller and growing business, which is one of the main reasons we decided to go with them over bigger companies. The level of support is always superb and our suggestions for software features have been added to version updates, so they really do take customer feedback on board.

”
